**Fax : 0039 0522.30.67.80**

#### **RATIONAL**

The organizations involved in the project provide services for people with Learning Disabilities.

They have a professional experience in research, diagnosis, treatment, pedagogical support and training for families, teachers and educators.

They want with this project to increase their professional competences on this area thanks to a comparison between specialists and to create an innovative booklet collecting diagnostic instruments, treatments and methodologies used at European Level about this theme. This booklet will be disseminated in educational and clinical contexts to increase competence in figures involved in these processes.

Partners work also with European School in their countries and they need new instruments in different languages (Italian, Spanish, French and English languages) for a specific work in these contexts.

#### Target

The project will involve staff members of the organizations (psychologists, educators and trainers) .

#### Indirect target (dissemination)

The participants to the project work with parents, specialists, educators, teachers and trainers in training.

#### Partners researched:

3 partners

- coming from public or private educational organizations and working with pupils/students with Learning Disabilities.

- Organization coming from Spain, France, Germany and Great Britain will be favoured by the Coordinator or organization working with Spanish, French, German and English instruments.

**Title of Project:****Learning Disabilities' world: innovative methods to discover and to deal with them.****COORDINATOR: (ITALIAN ORGANISATION )  
L'ARCOBALENO SERVIZI**

L'Arcobaleno Servizi is a SOCIAL COOPERATIVE (no-profit organization) founded as association in 1993, with the objective to develop the inclusion of children/students in conditions of difficulty (in particular with learning disabilities, special needs and other psychological diseases) and to support families in condition of disadvantage. It provides clinical and social-pedagogical services to citizens and to educational organizations, thanks to a multifunctional cooperative team of 28 experts: Doctors in Neuropsychiatry , Clinical/Scholastic psychologists, Psychotherapists, Language therapists, Therapists, Educators, Psychomotricists, Trainers. L'Arcobaleno Servizi is divided in two areas: Clinical and Educational. The primary objectives and activities are: alert to learning disabilities and other disorders; research; prevention diagnosis and treatment of learning disabilities, disadvantages and other resources; promote innovative educational methodologies in schools; support teaching staff from Pre-school to University and to improve their competences; support parents with children and teenagers with disabilities and give them new competences.

L'Arcobaleno Servizi has a diagnostic service, useful to identify specific learning disabilities and other disorders, and a long list of treatments that are useful to help students.

**L'Arcobaleno Servizi provides training courses for teachers, educators, parents and specialists (80 projects per year) at national and international level. In particular, L'Arcobaleno servizi has got an agreement with two European Schools in Italy about training for parents, teachers and trainer.**
